TECHNICAL SKILLS

- Cisco Networking
- PacketTracer
- Python (Flask)
- SQLAlchemy
- HTML/CSS
- JavaScript
- Bootstrap
- Power BI

PROFESSIONAL SKILLS

- Critical Thinking
- Marketing
- Project Management
- Endpoint Hardening
- Public Relations

SOFT SKILLS

- Leadership
- Adaptability
- Teamwork
- Time Management
- Multi-tasking
- Effective Communication

LANGAUGE

- English
- Chinese

ABOUT ME

Aspiring Cybersecurity Analyst and lifelong learner dedicated to continuous growth and self-improvement. Passionate about developing secure digital solutions and challenging myself to solve complex technical problems. I leverage a strong foundation in network security and full-stack development to build resilient, user-centric systems that prioritize data integrity and community safety.

PROFESSIONAL EXPERIENCE

Prime Taxi MAR 2025 - PRESENT
Service & Sales Associate

- Engaging with customers to promote services, handling transactions, and resolving inquiries in a professional manner.

Baggage Storage - Changi Airport OCT 2024 - MARCH 2025
Storage Assistant

- Managed POS storage systems in a high-pressure environment while collaborating with team members to deliver excellent customer service.

Ace Business MAY 2023 - APRIL 2024
IT Technician (Intern)

- Situation:** Managed IT support and infrastructure projects for a fast-paced startup and its clients.
- Task:** Provide remote and onsite support, including endpoint hardening and server infrastructure management for clients.
- Action:** Performed endpoint hardening to secure client devices and led a team of three other colleagues in a week-long project to dismantle and manage four server racks for a security systems project.
- Result:** Successfully completed the server rack migration project ahead of schedule, ensuring zero data loss and maintaining 100% uptime for client security systems.

EDUCATION

Nanyang Polytechnic 2025 - 2028
Diploma in Cybersecurity & Digital Forensics

Institute of Technical Education 2022 - 2024
Higher Nitec in Network & System Administration
GPA: 4.0 / 4.0

KEY PROJECTS

Full-Stack Developer

GenCon SG (Web Development Project)

- **Situation:** Created a secure community platform for distinct demographics while maintaining strict administrative oversight.
- **Task:** Engineered the community infrastructure, real-time communication tools, and administrative security backend.
- **Action:** Developed a real-time group chat and secure profile module with password management. Designed an Admin Dashboard to monitor chats and manage account lifecycles.
- **Result:** Implemented a moderation framework reducing unauthorized content risks and ensuring a secure environment for users.

Data Analyst

Cybersecurity Risk Visualization (Power BI)

- **Situation:** Complex security event data needed to be transformed into actionable insights.
- **Task:** Create a storytelling dashboard to visualize risk levels for stakeholders.
- **Action:** Developed a custom risk-scoring model and multi-page visualizations using Power BI and DAX.
- **Result:** Enabled ad-hoc visual discovery of data patterns, allowing for the identification of high-priority security threats.

CCA & LEADERSHIP

Drama Club (ITE)

Executive Committee (EXCO)

- **Situation:** The club was preparing for a major performance event hosted at the School of the Arts (SOTA).
- **Task:** Manage performance logistics and stage management while simultaneously performing as a lead actor.
- **Action:** Coordinated rehearsals and cast schedules, ensuring all technical requirements for the SOTA venue were met.
- **Result:** **Achieved an Excellence Award for the performance, demonstrating strong initiative and the ability to manage high-stakes projects under pressure.**

CERTIFICATE

AI Fluency: Framework & Foundations

Feb 2026

Web Development Fundamentals Certificate

Jul 2025

User Experience Design Fundamentals Certificate

Jul 2025
